# Hill House

HILL HOUSE WAS DESIGNED DIRECTLY IN REVIT AND RENDERED IN 3DS MAX

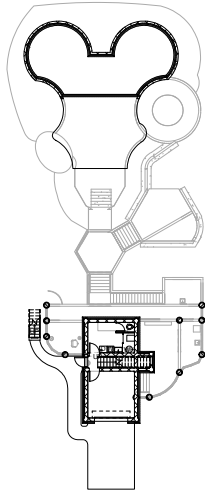

HILL HOUSE, "AT HOME IN NATURE," IS BASED OFF MANY OF THE HILLSIDE SILVERLAKE HOMES BUILT IN THE CIRCA 1930'S ALL OF WHICH HAVE SMALL LOWER LEVELS AND TINY GARAGES. THE IDEA WAS TO CREATE A FOUNDATION AS SMALL AS POSSIBLE AND THEN BUILD UP FROM THERE AND ACT AS IF IT WAS AN ADD-ON TO AN EXISTING STRUCIONRE.

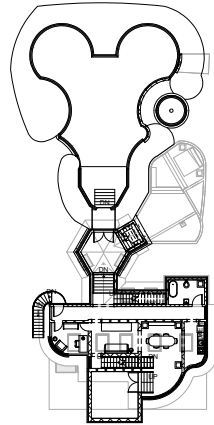

Silverlake, Ca

# CAMALOT

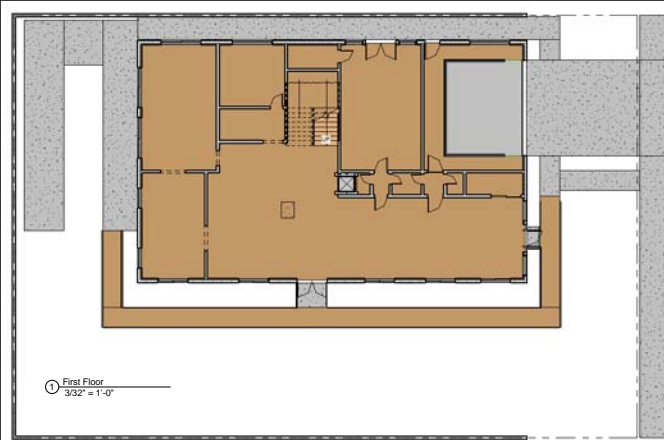

Camalot was designed in Autocad Rendered in 3ds Max and re-designed in Revit

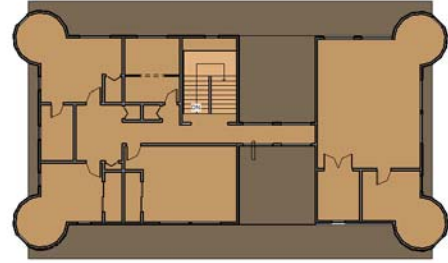

Camalot was my project for Arch 120, Four Bedroom Home, designed with a desire to take up as much space as possible and provide a in nature feeling.

# Office Building

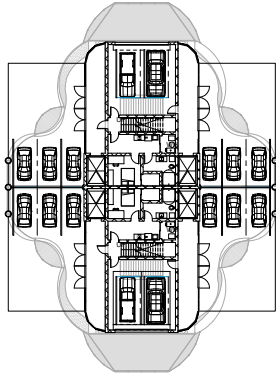

Office Building was designed directly in Revit & Renderings made in 3Ds Max.

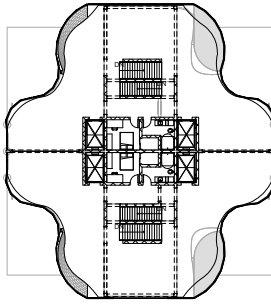

The Office building was designed from the basic unit developed in Hill house for the lower level adjusted to fit larger garage and a elevator shaft. The goal of this project was to expand on my new basic unit and explore the curves of concave convex forms that had been discussed in my Architecture Art History class for Bernini.

# Ark ~ Surfrider Casino Glass Roof

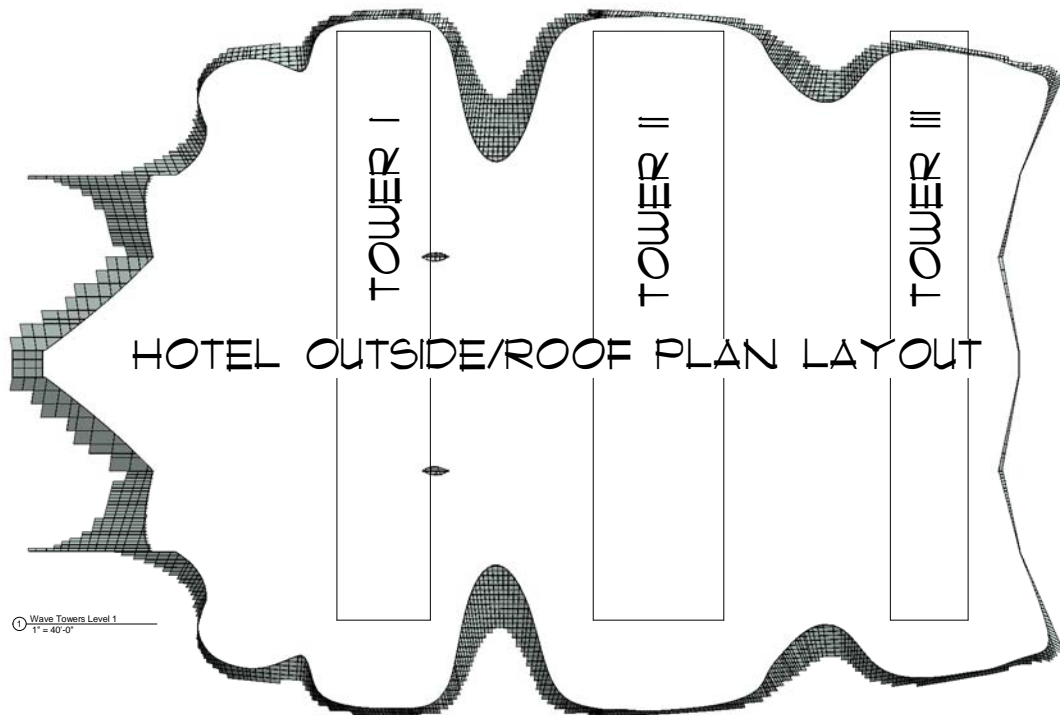

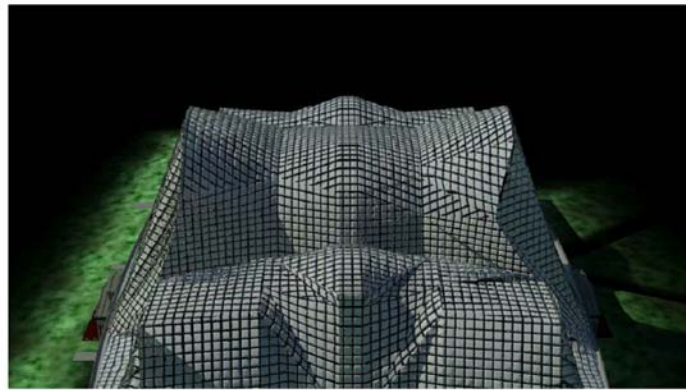

① (3D)

Surfrider  
Casino is  
based off  
the Surf of  
the  
Southern  
California  
Breakwaters  
and the  
Creationist  
Fable of  
Noahs Ark

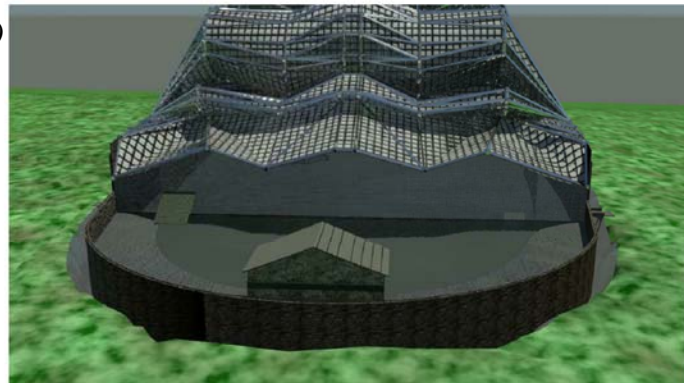

Portfolio: Architecture of  
Jennifer S.P artlow

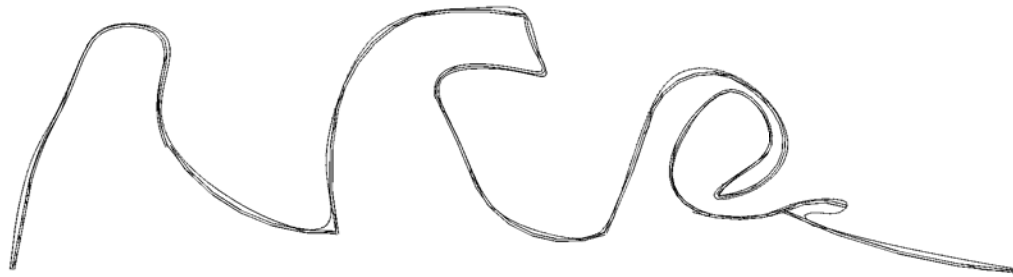

THE GLASS  
ROOF  
STRUCTURE  
WAS SO  
HUGE OF A  
FILE IT HAD  
TO BE  
SEPERATED  
TO RENDER  
OUT

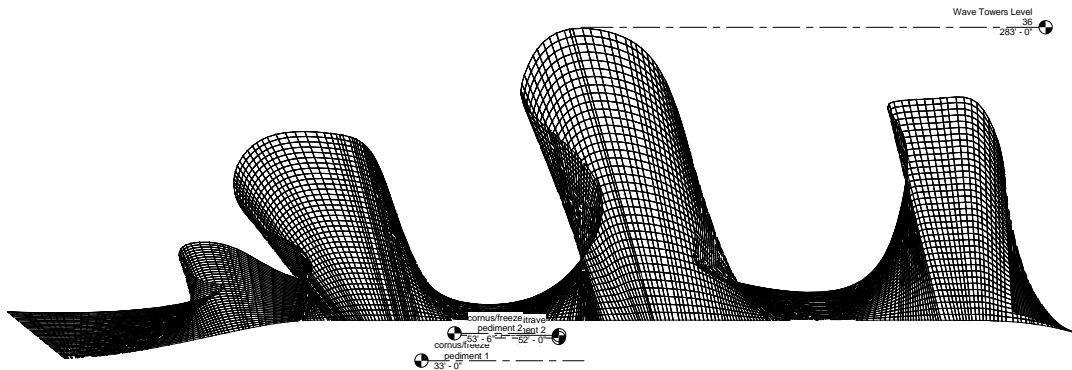

IN THE END I  
USED 3DS MAX TO  
CREATE A NEW  
POLYGONAL  
ROOF STRUCTURE  
FOR RENDERING  
THE 360  
ANIMATION OF  
THE SURFRIDER  
CASION  
AVAILABLE ON  
YOUTUBE.COM
