Embedding a video into your Moodle course makes it easy and convenient for your students to view the media. First go into your course page and turn editing on.

The image shows a YouTube video player interface. At the top, the YouTube logo is on the left, and a search bar contains the word 'cats'. To the right of the search bar are icons for search and 'Upload'. The main video player displays a black and white kitten. In the top right corner of the video frame, there is a logo for 'TIGER PRODUCTIONS wltigerlolw'. Below the video player, the title 'Funny and cute animal compilation 2015' is displayed. Underneath the title, the channel name 'Tiger Productions' is shown with a 'Subscribe' button and a subscriber count of 580,509. To the right of this information is the view count '8,901,244'. Below the view count are icons for 'Add to', 'Share', and a menu icon. Further down, there are icons for 'Like' (23,155) and 'Dislike' (2,277). A share menu is open, showing options for 'Share', 'Embed', and 'Email'. The 'Embed' tab is selected, and a text box contains the following embed code: `<iframe width="560" height="315" src="https://www.youtube.com/embed/w3Z3A-qEBVo" frameborder="0"></iframe>`. A 'SHOW MORE' link is located below the embed code. On the right side of the page, there is a 'Up next' section with several video thumbnails and titles, including 'Funny Cats Compilation 60 min HD 2014', 'Dogs just don't want to bath - F bathing compilation', 'Animals making funny sounds noises - Funny animal compilation', 'Funny ZOO fails and moments animal compilation', 'Cute cats feel guilty - Funny guilty compilation', 'TOP 10 CUTEST PETS! (2015)', and 'Best Funny Dog Vines 2015 | P...'. At the top right of this section is an 'Autoplay' button.

Then go out to YouTube, for example, select your video, and click on the “share” icon, and then click on the “Embed” tab under the video. Right click and copy this embed code.

Here is a cute video about animals...

```
<p><iframe src="https://www.youtube.com/embed/hhoQgN9oUpo" allowfullscreen="" frameborder="0" height="315" width="560"></iframe></p>
```

Next, You would write what you want to describe the video, and then paste the video embed code under or over the text. If you have problems pasting the embed code in with right-click "Paste" on your mouse, use the keyboard shortcut "Control V" to paste. Then, click "Update" .

 ppt

Here it is as your students will see it, with the text and the video controls.

We do recommend that you use closed-captioned videos from YouTube so that your course meets accessibility requirements for distance education course design.
