

# Keenan's Injured Worker Website

Resources to Help Simplify California's Complex Workers' Compensation System

## Why Provide Your Employees Access to the Injured Worker Website?

- Reduces the frustration of injured employees which often leads to litigation and adds unnecessary costs to a workers' compensation claim
- Eliminates confusion of the workers' compensation system to deliver the **efficient and compassionate services** that injured workers deserve
- Provides injured workers with clear information so they can focus on recovery and returning to work

## Resources for You and Your Employees

The Injured Worker Website provides you with:

- Information on how to report an injury
- Information on obtaining appropriate treatment
- Resources regarding many aspects of the claims process
- Information to promote and support safety and injury prevention
- With Keenan as your Claims Administrator, employees have the ability to connect with the Claims Examiner handling their claim

From a computer or mobile device, all the information that is needed to **stay informed on the claims process**, and **access the resources** the employee needs, is just a click away.

## Injured at Work

Workers' compensation benefits are designed to provide medical treatment needed to recover from a work related injury or illness, partially replace wages lost while recovering and help return employees to work. Workers' compensation benefits do not include damages for pain and suffering or punitive damages.

## Returning to Work

After an injury or illness, returning to work safely and promptly can help in recovery. It can also help injured employees avoid financial losses from being off work.
