

# CENTER FOR REENTRY PATHWAYS

NEWSLETTER

## HIGHLIGHTS

FRANKLIN DAVIS

Franklin is a mentor at the Center for Reentry Pathways at GCC and says the campus tour at USC gave him insight into the many resources available for justice involved students that he was not aware of before (e.g. tuition assistance). He was especially fascinated with Dr. Kathy Kolnick's work on "Gang Reduction and Youth Development" at the Center for Research on Crime, located in the Psychology Department. Franklin's goal is to transfer to USC's school of Cinema Arts as he aspires to become a producer, director, activist, and essayist.

The CRP's mission is to create a pathway into higher education for formerly incarcerated individuals through support with matriculation and graduation goals by addressing both their academic and non-academic needs. During the month of October, our team focused on exposing members of the Center for Reentry Pathways Program to the idea of transferring to a four year university. The goal was for our students to become aware that there are similar programs that provide academic resources, support, and community to students who have been impacted by the justice system. CFRP visited local universities: CSULA, USC, and CSULB, and CSUF

## UPCOMING EVENTS
