XIII. Special Reports/Governance Committees

1. Governance Review

- During this meeting it was discussed that they want to have zoom on the governance meeting because people are receiving their emails.

2. Instructional Planning

- During the meeting issues concerning the vaccine mandate were discussed.

Students and Faculty provided insight into the challenges that they faced with the mandate. Improvements were discussed on how to communicate information better with students. The number of students dropped in the fall semester was discussed as well as that noncredit was affected the hardest.

XIV. Guest Speakers

1. Dr. Paul Schlossman Vice President of Student Services

- Dr. Paul Schlossman went over the number of students that were dropped in different categories. He addressed some of the challenges that students faced and some of the reasons that they could not meet the vaccination mandate upload on Kokomo. Students

are allowed to be placed back into their in-person classes if they had a vaccination card but failed to submit it. The dropping of students began on the Wednesday after the November 31 mandate because of financial aid so that students would not have to playback.

2. Dr. Michael Ritterbrown Vice President of Instructional Services
