

ESL 146

Reading and Vocabulary for Math 136 (Statistics)

In Spring 2022, the Credit ESL Division will offer a new class for ESL students who are taking or plan to take Math 136, Math 136+, Math 136A or Math 136B.

In Math 136, ESL students are working with not only mathematical vocabulary, formulas and calculations, but also complex word problems with advanced English grammar and vocabulary related to American culture. In ESL 146 class, students will work with other students to improve their skills in the following areas:

- » textbook reading
- » note-taking
- » statistics vocabulary
- » strategies for reading and solving word problems
- » writing word problems

Students must purchase a copy of 5th edition of Michael Sullivan's textbook, *Statistics: Informed Decisions Using Data*.

TICKET #3502
MONDAY/WEDNESDAY
12:20–1:45 PM
REMOTE

Professor: Paul Vera
