Course Description and Course Note:	NS 219 provides the currently enrolled or returning nursing student with additional supervised clinical experience in the acute care hospital setting. Clinical assignments are intended to provide the opportunity for the student to strengthen previously learned basic nursing skills through repetition. This course fosters the knowledge and skills of the student to effectively perform patient-centered care. The rotation is designed to improve general patient care skills by offering experiences that foster confidence, critical thinking, time management and prioritizing skills, communication in the clinical setting, and collaboration/teamwork with all members of the healthcare team. Note: This course is Pass/No Pass only.
Justification:	Mandatory Revision
